- How to create a competitive advantage for attractive and livable urban destinations
- The disruptive power of mobile applications, technology, big data, augmented reality and new social media bears a lot of chances for destinations and tour operators to create a new visitor experience.
- Becoming a smart urban destination requires a well thought and integrated approach.
- The World Tourism Cities Federation (WTCF) has just recently released the “Global Report on Smart Tourism in Cities” sharing the results of a comprehensive research on smart tourism in urban destinations.
- This panel aims at providing a platform for learning about the outcome and conclusions made in the WTCF research.
- At the same time, it intends to give all stakeholders a stage to share their experiences in implementing smart initiatives and use technology as a tool to create extraordinary experiences and enable visitors to better enjoy their stay in a destination.
